CCOEP Members and friends

The truth is, we as a club have worked hard for many years in getting candidates elected and speakers to encourage us all to keep pushing for the Conservative values we hold dear. This past 1 ½ years have been a difficult time for all who have gone through this past presidential election and our local elections. Accomplishments were many as we continued to have individuals support us through donations for campaign offices and volunteers that prepared those offices and manned them to get the word out in support of our candidates. Now that we have worked hard this past election to get our presidential candidate elected we as a board have decided for many reasons to take a hiatus.

WHY AT THIS TIME?

- 1st is that we need more members to become actively involved in the club by assuming the positions as board members and volunteers. Finding individuals that do not want to just hear speakers but want to get involved and can assume and take over the responsibilities as President and vice president etc. is not occurring. While we do have those that volunteer for the board, we especially need volunteers that have the managerial and leadership attributes to take over the club and proceed to carry on all the necessary responsibilities needed.
2. The past election has caught up with everyone and members are tired and trying to catch their breath.
3. It will be more difficult to get elected officials to speak when there is no election they are running in (again, meaning not enough speakers)
4. The loss of board members because of illness, work, time constraints etc.?
5. Keeping this in mind, the board has decided to put the club on Hiatus allowing members and friends to catch their breath and to watch just what is happening in Washington, Tallahassee and Pasco County, and Zephyrhills.
6. We will be in touch with you when we are ready to KICK OFF the clubs return to be a strong force to be dealt with in the coming 2018 elections.
7. What can you do? Start asking yourselves, what am I capable of doing? Do I have managerial skills to run this club and grow with enthusiasm and new ideas? We need new blood to carry on our Conservative Values, ARE YOU UP TO IT? Start meeting in your own groups addressing what's happening in our Gov't, asking questions, interactive conversations, in-depth discussions and creative exercises in a small-group setting. You can do this and you just may find some strong individuals who are ready to take charge. Who do you know that has those skills? You might ask them if they are interested in volunteering (be sure they are STRONG CONSERVATIVES).
8. This we hope and pray does not discourage our members and friends but that it encourages them to rethink their contributions and what can they do to help push our much-needed Conservative values if we are to be the dominate club that everyone wants to join and be part of.You can email me with ideas and conversations you hear so we are ready in 2018
